

High Strength Silage Sheets

Manufactured using the finest raw materials, the Visqueen range of high strength silage sheets is strong, tear and puncture resistant. Visqueen has an increased resistance to weathering, protecting your silage crop from the harshest of weather conditions, and its UV inhibitors provide essential protection from sunlight.

- **A significantly stronger silage sheet**
- **Excellent tear resistance**
- **High resistance to weathering and UV inhibitors**
- **Easy to apply and longer lasting**

The science, chemistry and extrusion technologies we employ combine to deliver SmartStructure technology manufacturing processes that ensure all mechanical aspects of our films are maximised resulting in reliable, stable, high performing products that create ideal ensiling and storage conditions.

Thicknes	Width (m)	Length (m)
100µm	8	25, 33 & 50
100µm	10	25, 33 & 50
100µm	12	25, 33 & 50
100µm	14	25, 33 & 50
100µm	16	50
100µm	18	50

Visqueen is manufactured in an ISO 9001 and ISO 14001 accredited facility.

Optimal mix of essential characteristics High guage consistency
